- Be chronic.
- Be diagnosed before your 22<sup>nd</sup> birthday.
- Be caused by, or require treatment similar to, impairments such as mental retardation, cerebral palsy, epilepsy, autism, or other related condition.
- Be caused by dyslexia resulting from the above impairments.
- Substantially limit your ability to function in at least three of the following life activities:
  - Self-care
  - Receptive and expressive language
  - Learning
  - Mobility
  - Self-direction
  - Capacity for independent living
  - Economic self-sufficiency
- Require a combination of special, interdisciplinary, or generic care, treatment, or other services.
- Require services for extended durations or your entire life.
- Require services that must be individually planned and coordinated.
